SPRING 2025

Your position

Position yourself on sustainable, useful & obvious products.

We live in a world full of communicative noise. It's not easy to be heard for those who want to reach out. That's where **Plastprint** has played its role - and that's where **Prident** will continue to operate.

Communication relies on relationships. That's what we help our clients with - creating and reinforcing their relationship with their customers and target audience.

Who wouldn't be happy with the little

thing, perhaps received as a gift, that proves useful in everyday life - it could be the parking disc with an ice scraper, the water bottle, the coffee mug... or anything that, with our small imprint, reminds of the sender. We have given that little thing an identity - it's no longer an anonymous product but a message carrier that encourages continued engagement. With our products, we are a link, often the first one, in relationship building that requires care, honesty, and long-term commitment - just like

in any relationship. This creates **PR** that strengthens our clients **identity**, and that's the essence of our new name, **Prident!**

And please consider the "place marker," the symbol in our logo, not only as a location but as a symbol of a meeting place where communication flows and where you dare to take your place.

This is what we offer from Bredaryd, in the heart of Småland Sweden.

Wood

Uniqe bottle

Unique new bottle where we have combined the base material of our usual sports bottle with wood fiber from the forests of Småland. This gives the product a unique outward expression that exudes sustainability and innovation. The product has a very low CO2 footprint and is a self-produced bottle based on a high proportion of renewable raw materials. Available in off-white and red colors. Note: The wood content imparts a forest scent, and the taste of the beverage may be affected until the product has been conditioned and washed a few times.

Dimensions: 600 ml, height 200 mm.

Max printing surface: 211 x 135 mm.

Everyone deserves a second chance!

Are you in the front line in regards of sustainability? Placing your logo on a used object reduces the environmental impact and will be the topic of conversation on the golf course. All golf balls are subjected to a 100% ocular check. Many of the balls just got one chance in life and your mission is to put them back on the course, and brand it with your unique logo.

The new circular concept uses high quality balls with 100% new feeling, no marks and no previous prints. You can choose from a quality Kirkland Tour ball and a Taylormade Noodle. We brand your logo in full colour print and the golf balls are supplied to you in a 3-pcs paper box.

All balls have a unique story and the talk of the day will be who made the first birdie with the ball or if it sliced out of bounds at its first hit.

Example custom design

Visible in the dark

With reflectors, a car driver can see you from 125 meters away.

Good to know about reflectors

Reflectors save lives! Yet still only a few adults use reflectors. Most people think that as long as we can see the vehicle the driver can see us, but on dark and wet roads it is virtually impossible to detect pedestrians not wearing reflectors in time.

This is how a soft reflector is made

Our soft reflectors are manufactured using an approved and highly reflective quality material. A reflector hanger is built up of two layers of the reflective film to reflect from both sides. The print is made on a white liner that is placed between the transparent, reflective layers in white or fluorescent yellow material before the reflector is fitted together. This ensures a 100 % effective reflective surface. Our slapwraps also contain a stainless steel spring for guaranteed spring force around the arm or ankle. It consists mainly of recycled steel.

Safety Reflector Tag Round

A classic hard reflector in tenable polystyrene. Packed with ball chain or string and safety pin. Attach the reflector for exposure around knee height. Attach a reflector on each side of the body. The reflectors must hang freely and be visible from the front, back and the sides.

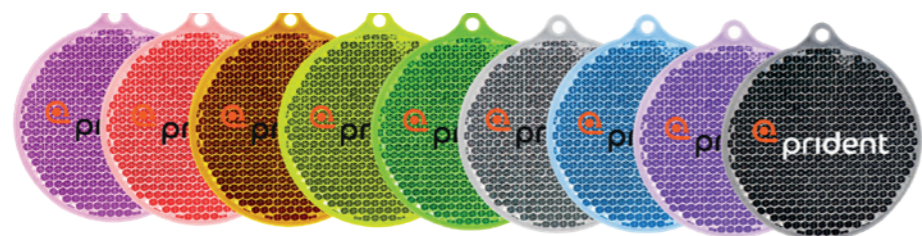

The product is approved according to CE EN 17353:2020 B1. In order to fulfill the requirement in the standard, at least two reflectors must be worn at the same time as described above.

Dimensions: Ø 55 mm.
Maximum printing surface: Ø 50 mm.

Tire marker Smart Marker

Item no. 68101
Color: White

Now there is a new smart tire marking. It is good to rotate the front tires to the back, and vice versa, to even out the wear on the tires; provided there is no major difference in tread depth/grip. In which case, the best tires should on the back wheels. The tires should also turn in the same direction, so do not move the tires to the other side of the car. Which is why it is good to keep track of which wheels the tires were on when reattaching them. 1-4 colour prints or photo prints.

Dimensions: 120 x 100 mm.
Maximum printing surface: 29 x 45 mm x 4 pcs
